PROJECTS

BBVA :

- Successfully helped the team maintaining refactoring improving and working on many internal and external web-apps and softwares
 - build a world-wide chat app for the bank customers with many features such as sending money to the person you chat with and more
- My responsibility was building the software's UX and the app's structure from scratch using React JS

Skema — <http://104.131.121.35:5555/>

A full- stack scheduler application to book services based on availability.

Built using React.js, Node.js, React Bootstrap, PostgreSQL

As part of the development team, I was responsible for most of the client- side functionality and for connecting the client to the database through a restful API

Jom & Terry — <http://107.170.91.211/>

A full- stack HTML5 game inspired by the cartoon Tom & Jerry

Awarded Best User Experience (UX) at DevMountain
Built using Angular.js, PIXI.js, JavaScript, jQuery, Howler.js, CSS3

MusicLoud

<http://107.170.91.211:4000/#/>

A music application allowing users to search music, listen, and create playlists

Based upon the SoundCloud web application
Built using Angular.js, JavaScript, jQuery, Bootstrap and CSS3
